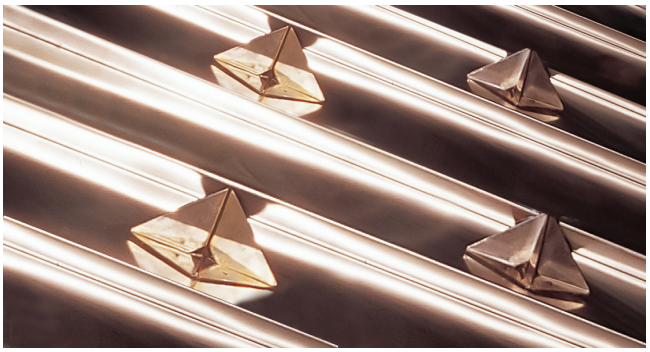
SNO GEM™
the ultimate snow guard

SNOW SHOULD ONLY FALL ONCE™

CUT SHEET

Original Metal Snow Guard

For Metal, Slate, Tile & Asphalt Shingle Roof Systems



Overview

Formed after the Sno Gem Original Polycarbonate, this prismatic design is available in any standard or custom pre-finished color and can be manufactured in any metal form, including Follansbee Steel, copper, lead coated copper, pre-finished Kynar 500 Metal, stainless steel, brass, galvalume, aluminum, zinc, Freedom Gray, Terne Metal, and TCS for metal, slate and shingle roofs. The Original Metal can be installed using patented pre-tinned backing for soldering to copper – just clean and heat on the roof system. Optional custom length plate attachment for installation on slate or shingle roofs.

Applications

For Metal, Slate, Tile & Asphalt Shingle Roof Systems.
