

## Junior Polycarbonate

### Snow Guards For Metal Roof Systems

### Overview

Manufactured from clear UV-stabilized polycarbonate material, or available in a color that is injected throughout product and can be matched to any standard roof panel. The Sno Gem Junior offers a 12.5 square inch bonding surface and is recommended on panels with intermediate ribs. Apply adhesive using 3M VHB Tape, tube adhesive, or a mechanical fastening application.

### Innovation

Manufactured from UV-stabilized polycarbonate, the unique design of these crystal-like guards suspends the field of snow until the snow and ice gradually melt under the sun's rays.

**CUT:** Sno Gem snow guard's prismatic design was developed by architectural sheet metal professionals with over 50 years of on-the-roof experience.

**CLARITY:** Sno Gem offers a clear prismatic snow guard which retains its crisp, clean good looks. There's no metal to rust or stain. Sno Gem snow guards are unaffected by climate extremes.

**COLOR:** Sno Gem snow guards can be matched to all industry standard metal roof colors. Sno Gem also offers an unlimited amount of custom colors to meet architectural requirements. The color is injected throughout the product.

### Dimensions

Height : 3.25" - Width : 2" - Depth : 6.25"

### Applications

For Metal Roof Systems.

### Colors

Available in Clear or Matched to Any Standard Roofing Color.
