

## Original Metal™ Snow Guard

For Metal Roof Systems

### Overview

Formed after the Sno Gem® Original Polycarbonate, this prismatic design is available in any standard or custom pre-finished color and can be manufactured in any metal form, including: pre-finished aluminum or steel in Kynar 500 finish, stainless steel and galvalume. Diagonal installation creates a 5" barrier for more coverage per unit on wider panels. **The Original Metal™ snow guard is installed using tube adhesive or a mechanical fastening application.**

### Applications

For Metal Roof Systems.

### Recommended Accessories

Depending on the application, the following accessories are available to ensure proper installation.
