

Retrofit Original Polycarbonate™ Snow Guard For Metal Roof Systems

Retrofit SB-190 Adhesive Application Shown

Overview

The Retrofit Original Polycarbonate™ is ideal for use as a replacement snow guard. It was developed by experienced architectural sheet metal professionals and offers 49 square inches of bonding surface - the largest base available in the industry! Not only does the larger base provide greater holding power, it also effectively conceals any blemishes or imperfections to the metal panel from the previously installed snow guard. Each part is manufactured from UV-stabilized polycarbonate material, with color injected throughout to match any standard roof panel. The Retrofit Original Polycarbonate™ can be used regardless of whether the original installation was completed in a standard or diagonal layout. **Apply using tube adhesive or a mechanical fastening application.**

Innovation

Manufactured from UV-stabilized polycarbonate, the unique design of these crystal-like guards suspends the field of snow until the snow and ice gradually melt under the sun's rays.

CUT: Sno Gem® snow guard's prismatic design was developed by architectural sheet metal professionals with over 100 combined years of on-the-roof experience.

CLARITY: Sno Gem® offers a prismatic snow guard which retains its crisp, clean and architectural appeal. There's no metal to rust or stain. Sno Gem® snow guards are unaffected by climate extremes.

COLOR: Sno Gem® snow guards can be matched to all industry standard metal roof colors. Sno Gem® also offers an unlimited amount of custom colors to closely match the metal roof panel. The color is injected throughout the product.

CARAT: The true measure of a gem's worth. At the heart of each Sno Gem® is an engineered, multi-directional, multi-purpose drain opening for melting snow and ice to flow freely, plus heat cables can be easily routed through the opening.

Dimensions

Height: 3.25" - Width: 7" - Length: 7"

Applications

For Metal Roof Systems.

Colors

Available in Virtually Any Color to Match Most Standard Metal Roof Panel Manufacturers.

Diamond Texture Base

Recommended Accessories

Depending on the application, the following accessories are available to ensure proper installation.

Isopropyl Alcohol Panel Cleaner

Surebond SB-190 Adhesive

Retrofit Sanding Template
